**.....GABRIEL IPOTIZZA ADDIRITTURA  
MACCHINE VOLANTI AD ENERGIA  
SOLARE**

***..E ANCHE ELEONARA PENSA CHE SI SAREBBE POTUTO VIAGGIARE VELOCEMENTE , SE SOLO I PARTI AVESSERO CAPITO!!***

**...VALENTINA ADDIRITTURA PENSA CHE TUTTO IL SISTEMA SOLARE SAREBBE INTERAMENTE ESPORATO E BEN CONOSCIUTO E POTREMMO DECIDERE DI FARE ADDIRITTURA PASSEGGIATE DA UN PIANETA ALL'ALTRO!!**

***DENNIS IMMAGINA ROBOT "PULISCI PULISCI" IN OGNI PARCO, PRONTI A INTERVENIRE CONTRO OGNI FORMA DI inquinamento .....***

**ANNALISA POI IPOTIZZA , PER ALIENI  
COMPRESI , ...."PIZZA GRATIS PER TUTTI"!!  
CHE MERAVIGLIOSA IDEA!!**

*Francesca immagina delle barche che navigherebbero grazie all'energia solare e con il loro braccio robotico raccoglierebbero tutti i rifiuti in mare.....*

*..invece Matteo ritiene che a quest'ora ci sarebbero tanti poliziotti che fermerebbero tutti coloro che non amano l'ambiente .*

*...Francesco invece pensa che a quest'ora tutto sarebbe possibile....come ad esempio smaterializzare le auto fino a farle entrare in una valigia e godersi poi la sinfonia e la bellezza della natura.*

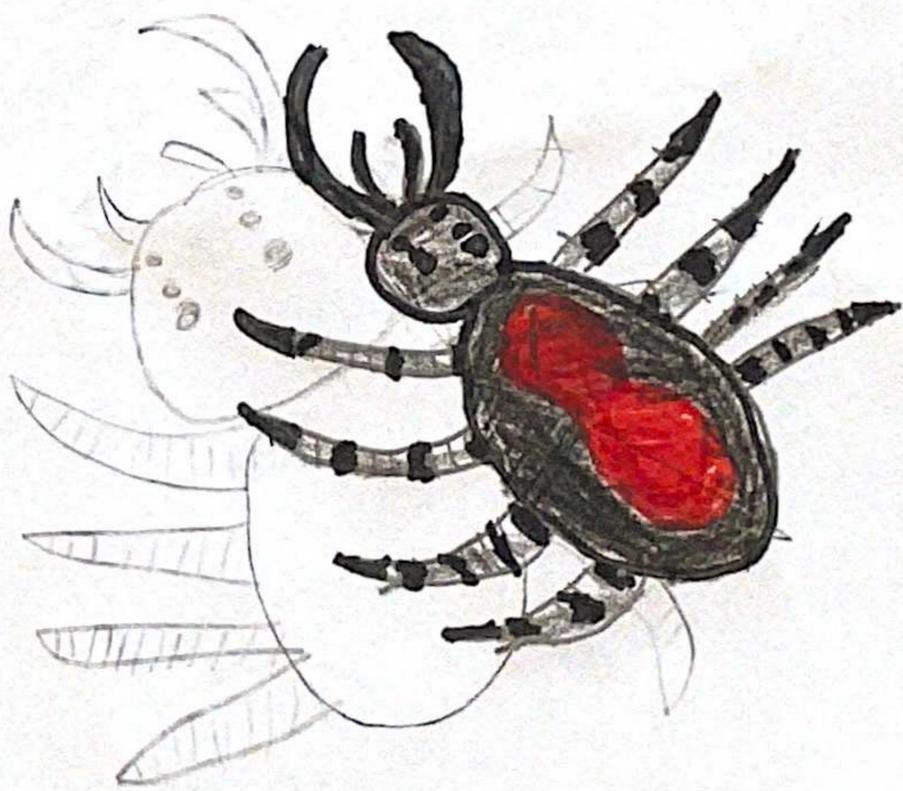

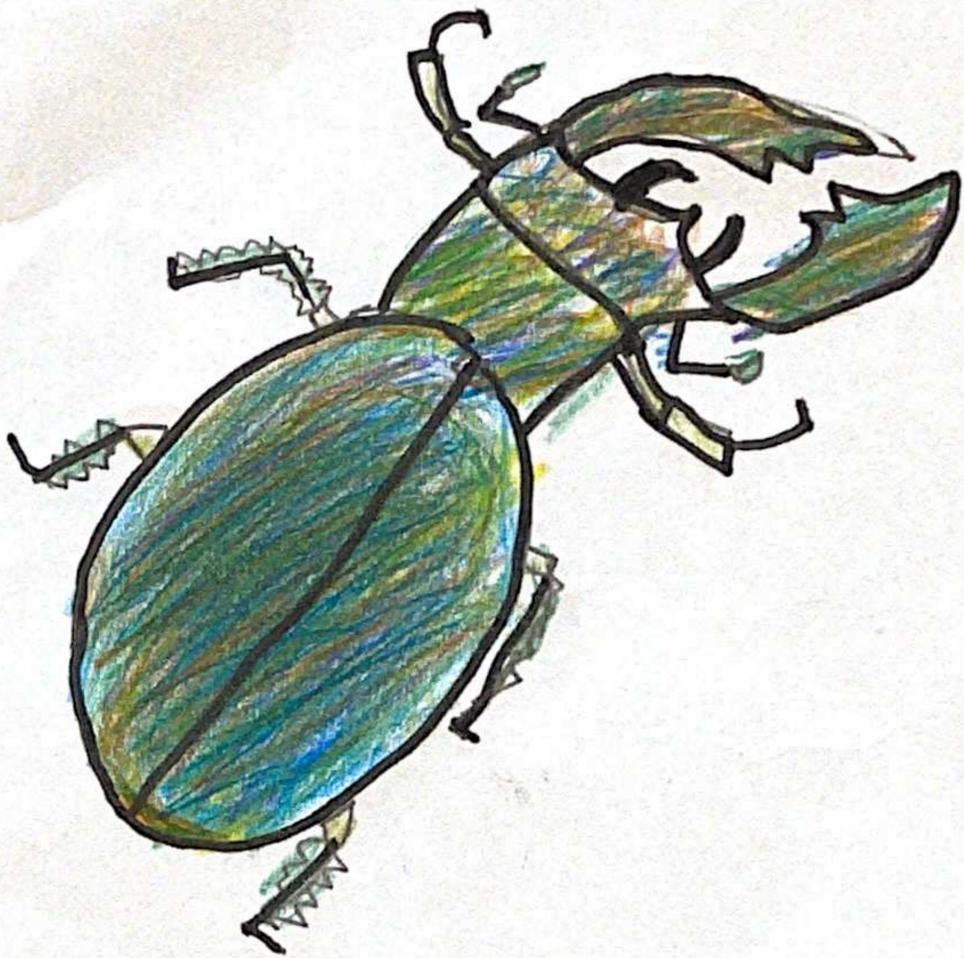

*".....visto com'è andata e considerato che non si può andare indietro nel tempo ma , al contrario, si può invece immaginare il tempo del futuro che verrà ....*

*Noi amiamo tanto questo mondo e questo tempo .....che è il nostro mondo e nostro tempo!!*

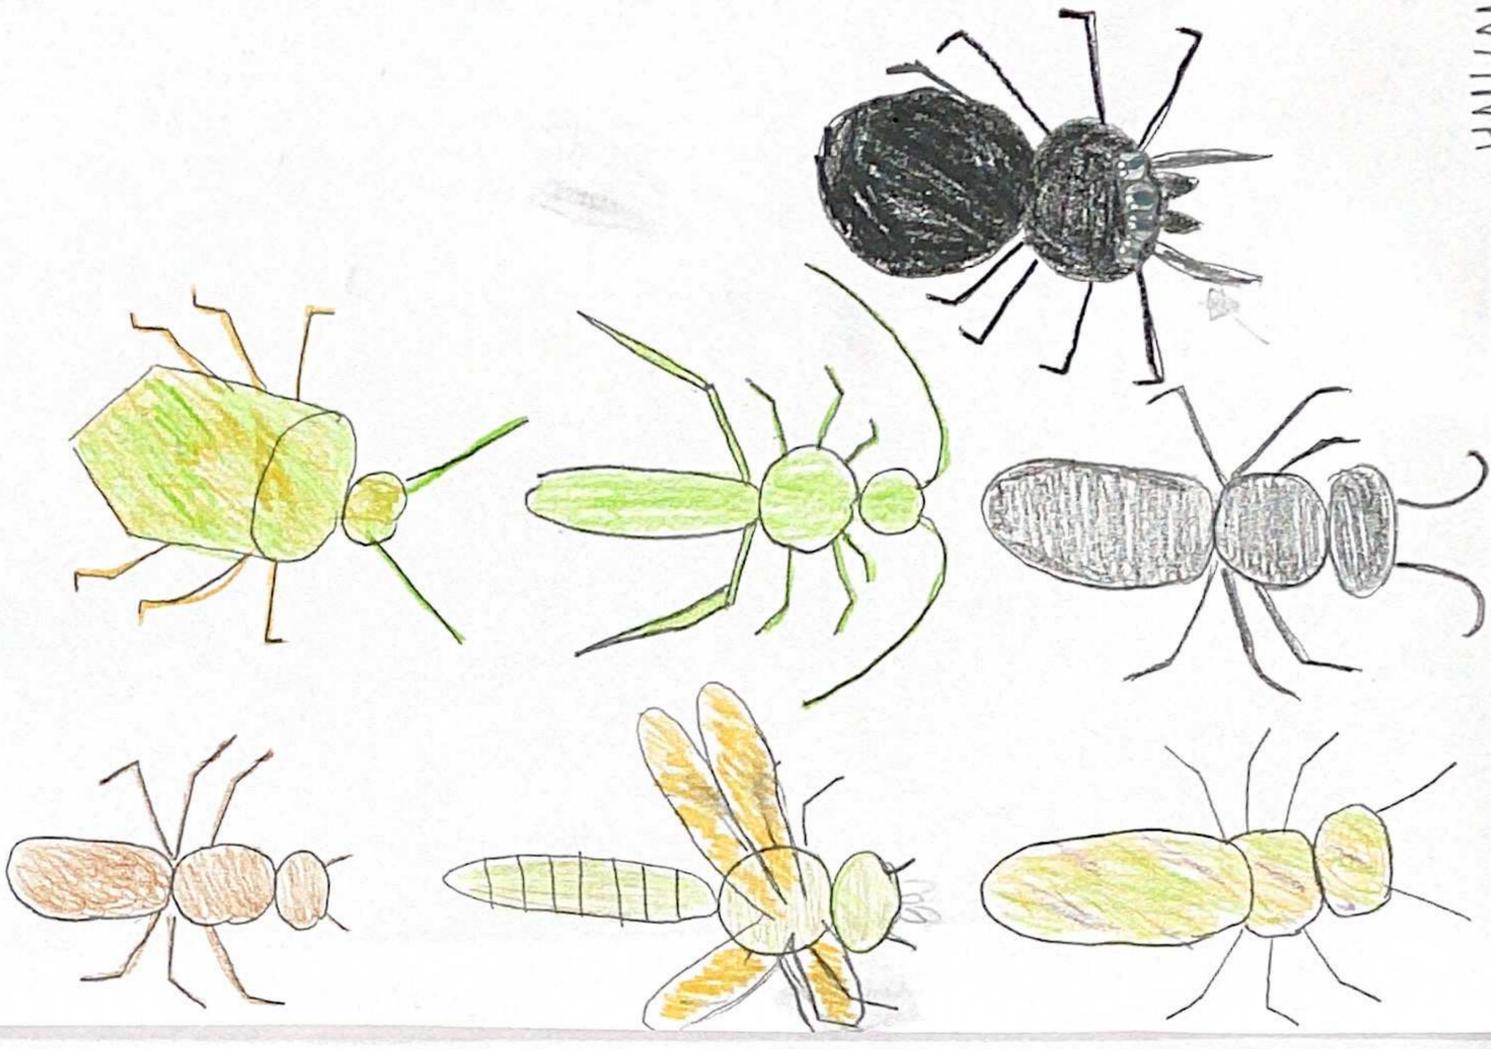

*Noi amiamo tanto questo unico e bellissimo pianeta Terra e ogni giorno possiamo fare piccole grandi cose...*

*Rimbocchiamoci le maniche: c'è lavoro per tutti quanti!*
